Official websites use .gov A .gov website belongs to an official government organization in the United States. Secure .gov websites use HTTPS A lock ( ) or https:// means you've safely connected to the .gov website. Share sensitive information only on official, secure websites. CDC’s National Healthcare Safety Network is the nation’s most widely used healthcare-associated infection tracking system. NHSN provides facilities, states, regions, and the nation with data needed to identify problem areas, measure progress of prevention efforts, and ultimately eliminate healthcare-associated infections. In addition, NHSN allows healthcare facilities to track blood safety errors and important healthcare process measures such as healthcare personnel influenza vaccine status and infection control adherence rates. COVID-19 reporting and vaccination resources for all healthcare facilities. NHSN Focus on Race, Ethnicity, Language, and Interpreter Use Data to Address Health Disparities COVID-19 reporting and vaccination resources Healthcare Personnel and Resident Weekly Reporting New measure and dashboard available now CDC and CMS Issue Joint Reminder on NHSN Reporting New Data Tools Some progress, but more work is needed NHSN Requirements & Recommendations for Application Use
